OBJECTIVE

My name is Vatsal Joshi and I am a graduate of Computer Science Engineering from Parul University. In addition to my academic qualifications, I have acquired hands-on experience as a front-end developer through four months of training and a three-month internship at Webbrains Technology. Throughout these experiences, I have actively contributed to various projects and honed my skills in front-end technologies such as JavaScript and React.js..

EDUCATION

10th, M.N.J Patel	2017
12th, Ashadeep Science	2019
Bachelor of Computer Science, Parul University	2019 - 2023

SKILLS

Technical Skills	Reactjs, JavaScript, Redux, HTML, CSS, Bootstrap.
Soft Skills	Node.js, Tailwindcss, Figma.

EXPERIENCE

Front end Developer April 2023 - Jan2024
Webbrains Technology *Vadodara, Gujarat*

- I have a strong knowledge of JavaScript concepts and gained hands-on experience in ReactJS through various projects.
- I can solve many problems related to HTML and JavaScript tasks, and then utilize the React.JS framework to make websites more efficient. I have hands-on experience completing many projects utilizing these skills.
- I also created a weather app, to-do list, and expense tracker.I also utilized Axio for API calls and learned various methods.

.Net developer Jan 2023 - Feb 2023
Pintionclickhelthcare *Vadodara, Gujarat*

- I have completed my one-month training.NET development.
- I am interested in learning how to design and maintain software and applications using Microsoft.NET framework.

PROJECTS

Freshmart. This project will be created using JavaScript and ReactJS. Here, I will be using Axios and Redux, and also adding functionality to the cart. After that, I will use Tailwind CSS to add more styling to this website and implement the 'add to cart' functionality.

BOXICHAMPWeb-Page. The homepage of BOXICHAMP features a dynamic design that promotes an immersive experience for users.By utilizing captivating imagery, bold fonts, and interactive elements, the page effectively conveys the organization's mission, lessons, and unique experience. The user-friendly navigation ensures that visitors can easily explore the various aspects of the organization and make informed decisions about their participation.

Covid-19 Statistics website. This webpage displays COVID-19 statistics for multiple countries and specific dates. In this project, I will also be using the Axios library to call an AI. This is a real-world project that displays COVID-19 cases.

News Web App. In this news website, I will use Axios to call the API in object form. Then, I will use React and Bootstrap to style the website. Help me get daily news.

EXTRA-CURRICULAR ACTIVITIES

- I'm actively involved in EDM music production, creating and producing tracks. I also enjoy vlogging to share my experiences and connect with an audience. Additionally, I engage in gaming streaming, combining my love for video games with community interaction. These activities reflect my diverse interests and showcase my creativity and communication skills

CERTIFICATE

- Udemy (01/2020-08/2020) Web developer bootcamp.

- WebTech- Front-end developer.
